

# OLA IS COMMITTED TO THE ENVIRONMENT

*Posted on February 21, 2021*

OLA cares for our communities and our environment, by applying our expertise to conserve resources and reduce wasteful practices. We go the extra mile to help our customers ensure that they use only what is needed and non-toxic alternative solutions are identified wherever possible.

We believe that every day offers us an opportunity to have a positive impact on our surroundings in partnership with our customers. Please contact at us [info@ola-us.com](mailto:info@ola-us.com) to see if we may be able to further increase your organization's ESG initiatives.
